INNOVATION AT ITS SOURCE

DELABIE

DELABIE's
commitment

DELABIE, a manufacturer's expertise

DELABIE, a 100% family-owned French company, established in 1928, **is the European market leader in tapware and sanitary accessories for the non-domestic market.**

It has a special offering for this market, with five ranges: Water controls for Public and Commercial places, Water controls for Healthcare facilities and Retirement homes, Accessibility and Hygienic Accessories, Stainless steel sanitary ware and other Specialist controls.

Over 2,000 DELABIE manufactured products, **internationally renowned**, are exported from its factory in France to more than 90 countries. The company has 9 subsidiaries worldwide: Germany, Austria, Benelux, United Kingdom, Portugal, Spain, Poland, United Arab Emirates (Dubai) and China (Hong-Kong).

NEW PRODUCTS 2024 DELABIE

Our ambition: Water savings, Innovation, Performance, Design... **all with a 30-year warranty.**

Finding unique solutions, creating new technologies, registering patents, respecting environmental and international standards: **at DELABIE, Research & Development is our driving force.**

Water and energy savings, eco-friendly and stylish product design, ease of installation and maintenance are all fundamental to our company culture. This means we can provide **constant support for commercial buildings, healthcare facilities and all other public places in their daily challenges.**

Our DELABIE objective is to exceed your expectations, by taking our environmental impact into account during all stages of our process, from design to production, through delivery and up to final use. DELABIE is committed to **using sustainable raw materials that are recycled and recyclable** when creating our products. Use of heavy metals such as lead and nickel is limited, allowing our products to comply with the 4MS Initiative and **to benefit from numerous certifications such as WRAS, ACS, KIWA, KTW, etc.**

DELABIE products are the very antithesis of planned obsolescence. They have been specifically designed **to last as long as possible** and to be particularly **easy to repair**, equipping them with a significant ecological advantage. DELABIE also offers a **30-year warranty** on products, and is committed to ensuring that they can be **repaired for 50 years.**

Lastly, user hygiene (touch-free operation) as well as system hygiene (daily anti-bacterial pipework flush) are at the core of our solutions. Our products are designed and developed to guarantee **complete hygiene in public and commercial places.**

Our aim in 2024, as it was in 2023, is to design new products which remain faithful to our trademark quality, renowned in France and around the world: **remarkable design and dependable manufacturing.** For every project, for every issue, there is a DELABIE solution made for you.

We hope you enjoy discovering our products.

Would you like to know more about DELABIE? **Go to delabie.co.uk**, where you will easily be able to find all of our products and download **a large number of files and BIM objects** freely.

Our catalogues are, of course, available on request or on our website.

TEMPOMATIC CONNECT CISTERN-LESS WC FLUSH SYSTEM, RECESSED AND ELECTRONIC

Proven water savings

Cistern-less flush: proven system prevents leaks; powerful flush doesn't require multiple flushes.

Total hygiene

100% automatic flush activation with no manual contact. No cistern means no water stagnation or scale deposits that can encourage bacterial development.

Design

Recessed model, brushed stainless steel control plate.

Comfort

Touch-free automatic operation when the user leaves or voluntary activation by passing the hand in front of sensor; flush is instantly available; settings are easily adjusted via the DELABIE Connect mobile app. Suitable for people with reduced mobility.

Available as battery-operated model, with a matte black finish, and with or without frame system.

MECHANICAL BASIN MIXER WITH THERMAL SHOCK FUNCTION

Infection control

Mixer specifically designed for healthcare facilities: spout with a tube with smooth interior; low volume of standing water in the body; no contact with chrome or nickel.

Anti-scalding safety

Pressure-balancing technology (EP): hot water flow rate reduced if cold water supply fails. Thermal shock feature without removing the control lever. Securitouch thermal insulation. Pre-set maximum temperature limiter.

Comfort

Stable temperature regardless of pressure and flow rate variations in the system. Ergonomic control is easy to grip.

Design

Clean lines.

Also available with standard ceramic cartridge.
