

## 2024 GERMAN DESIGN AWARD WINNER: BLACK BE-LINE® T-SHAPED GRAB BAR

COMFORT, WELL-BEING AND DESIGN FOR ALL

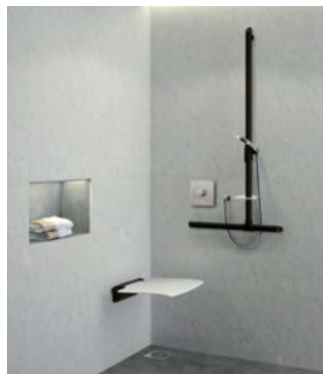

**The black T-shaped grab bar with sliding vertical rail from the Be-Line® range (DELABIE reference 511944BK) has won a 2024 GERMAN DESIGN AWARD.**

### The Award

The GERMAN DESIGN AWARD, conferred by the jury of experts at the German Design Council (Rat für Formgebung), is one of the most prestigious design competitions in the world and enjoys a reputation which extends well beyond specialist circles.

Every year the candidates for product design and communication are carefully selected and awarded for their individual, innovative contribution to the evolution of the international design landscape.

The competition imposes extremely high criteria in the selection of its winners. Due to the unique nomination process, only products that rise clearly above the rest in terms of quality and design are invited to compete.

### The product

BLACK is back! The T-shaped grab bar from the Be-Line® range is not short of elegance, seducing the 2024 German Design Award jury with its matte black finish.

The stigmatising and medicalised aspect of accessibility equipment intended for people with reduced mobility is completely eradicated by the clean and discreet lines of this T-shaped grab bar.

The shower is then accessible to everyone, leaving only a feeling of well-being, free from any complex, both at home and in the wider environment.

The T-shaped grab bar benefits from a sliding vertical riser rail which allows it to adapt to the existing installation, whatever it may be.

The riser rail can be moved to the left or the right in relation to the location of the shower controls or according to the depth of the shower seat. Accessories from the Be-Line® range (for example, a shower head holder or soap dish) can be attached to the riser rail; integrating naturally in a shower space. Its rounded profile and ergonomic, anti-rotation flat surface provide an ergonomic grip.

As with all DELABIE's Accessibility products, the Be-Line® T-shaped grab bar benefits from the Safety pack: 30-year warranty, CE mark and tested to over 200kg. In public and commercial places, the user weight is unknown. The product installed must therefore be able to support any user.

The Be-Line® range is available in two other finishes - matte white or metallised anthracite - and includes accessibility products and hygienic accessories.
