

THE ELEGANCE OF BLACK WITH BE-LINE® GRAB BARS
COMFORT, WELL-BEING AND DESIGN FOR ALL

The BLACK Collection

Matte black, matte white or metallised anthracite finishes

The DELABIE Group, expert in accessibility and sanitary fittings for public places, has extended its Be-Line® design range with a new matte black finish. Following on from the BLACK BINOPTIC electronic mixers and taps, the soap dispensers, hand dryers, washbasins, etc. its now the grab bar's turn to dress to impress.

Design & elegance

DELABIE continues its campaign for design-for-all with its Be-Line® range which combines comfort and aesthetics in public places. Be-Line® grab bars and shower seats eliminate the stigmatising and medicalised aspect of equipment intended for accessible use by people who have temporarily, partially or permanently lost their autonomy.

These Be-Line® products rise to the challenge of delivering equipment that is comfortable, aesthetically-pleasing and accessible. They present sleek, discreet lines that blend naturally into their environment.

Paint it BLACK

Already available in matte white or metallised anthracite powder-coated aluminium, Be-Line® grab bars are now available in matte black. These various finishes provide a strong visual contrast with the wall while adapting to all decorative styles.

These black grab bars complete the BLACK MAGIC COLLECTION, to offer a BLACK range which already comprises electronic taps, soap dispensers, toilet roll holders, coat hooks and hand dryers, as well as washbasins, toilets and urinals.

This elegant black range accompanies the rise in profile experienced by washroom facilities in public places; today considered as a showcase of their establishment.

Safety and well-being

Be-Line® grab bars have a rounded profile which, combined with flat front face, provides a more ergonomic grip for everyone.

As with all DELABIE's Accessibility products, the Be-Line® range benefits from a Safety Pack: 10-year warranty, CE mark, and tested to over 200kg.

Regardless of the user's age or level of independence, Be-Line® products are designed to be transgenerational and adapted for everyone. In public and commercial buildings, the user is unknown, so it is necessary to provide accessible equipment that can be used in every eventuality.

The Be-Line® range delivers a feeling of well-being and living well by making the shared use of all sanitary spaces more pleasant, whether they are showers, toilets or washbasins.
