Quick and easy to install

Stainless steel, 100% recyclable

Ref. DELABIE: 110310

Industrial? Stainless steel? Think again!
DELABIE combines expertise and creativity to reshape and reinterpret stainless steel.

Stainless steel at the heart of design

Stainless steel is a resilient and unbreakable material. Which is why it is often recommended for places with high levels of vandalism. But stainless steel should not only be used in prisons!

100% recyclable, it is a noble material which combines resilience, hygiene and design.

It is, therefore, at home in all public places: restaurants, offices, shopping centres, museums, schools, hotels, etc.

S21 S designer WC

With its slim black or grey toilet seat, the S21 S WC combines design and water saving with an effective flush of 4 litres.

Made from bacteriostatic 304 stainless steel, the pan itself is pressed and polished for improved hygiene and simplified maintenance.

Lightweight, it is quick and easy to install thanks to a stainless steel mounting frame. It is also compatible with all standard frame systems and works efficiently with a cistern or direct flush WC system.

This WC is available with an extended pan length of 700mm to assist the transfer of people with reduced mobility (ref. 110710).

PRODUCT BRIEF / S21 S WALL-HUNG STAINLESS STEEL DESIGNER WC

Made from bacteriostatic 304 stainless steel, the S21 S WC from DELABIE combines design, hygiene and water saving with an effective 4L flush.
